University of Haifa

Platform – purpose and expectations

Online interface to enable

- the collaboration between
 - public health education
 - training institutions
 - workforce stakeholders
- supporting employability and continuing professional development

Platform – purpose and expectations

Online interface for

- students
- employers
- PH system governance structures

to use for

- practical placement
- employment opportunities
- career guidance
- PHW planning and development

Public Health

Conceptual background of the platform (HU, JU)

Sept. 21 – Jan. 22

Personas

PH STUDENT

Tom is a public health student. He is very interested in biostatistics, so he is looking for courses related to this field.

His teacher told him about the platform. He types in the website address and creates an account as "PH Student". He fills out a short form (name, surname, login, password, etc.).

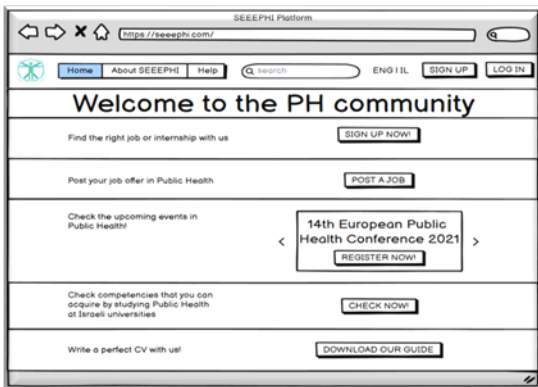

After logging in, Tom switches to the "Edit profile" tab, where he fills in competencies he has already acquired (according to the ECCLPHIP list) as well as his areas of interest (ECCLPHIP). He selects that he wants to improve his competencies in epidemiology and biostatistics. He also checks the "Looking for internship/job" checkbox. Then he clicks the "Save" button.

Later on, he switches to the "Courses" tab. A list of newly added courses is automatically displayed. At the top of the page, there is a filter where he can choose the competencies he wants to acquire. As he did it already on his personal profile, he clicks a button "Insert data from my profile" – the category "Wanted competencies" is automatically filled in. After clicking the "Search" button, courses related to biostatistics are displayed. One of them is organized by the University of Haifa. Tom checks the advertisement – the university published a list of competencies he can obtain after taking the course (according to the ECCLPHIP list). Tom decides to enroll, so he sends his application via email.

Then Tom switches to the "News" tab, where he finds information about the forthcoming conference related to COVID19 and recently published research papers written by public health specialists.

A week later, Tom receives a notification that a course in biostatistics organized by a well-known training company will be held in a month. However, he wants to ensure he will be available that day so he adds this course to the "Follow list".

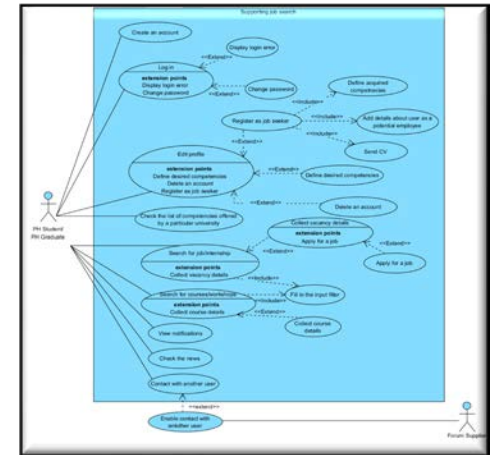

Wireframes

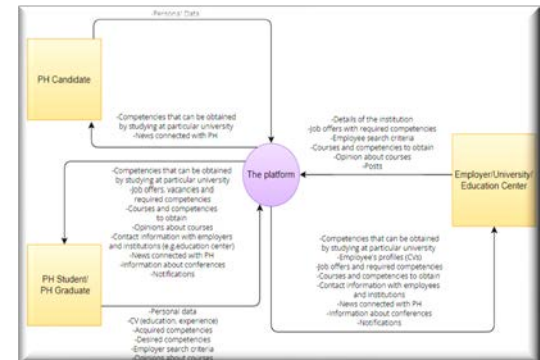

Functionalities

- Functionalities
- User registration and login
- Editing user's profile
- Checking the list of competencies that can be acquired by studying PH at particular university
- Defining acquired competencies by a job candidate
- Defining desired competencies by a job candidate
- Searching for jobs/internships
- Sending messages to potential employers
- Searching for courses and workshops
- Searching for conferences
- Post information about conferences
- Adding opinions about courses
- Adding job offers/research offers
- Deactivating job offers/research offers
- Defining required competencies by employers
- Searching for employees, filtering search results
- Sending messages to potential employees
- Adding course/workshop offers
- Defining competencies that can be obtained by participating in a particular course
- Deactivating course/workshop offers
- Defining the curriculum (according to the ECCLPHIP) by universities
- Checking the latest news connected with PH
- Adding new posts to the "News" tab
- Participating in discussions on the forum
- Deleting an account

Behind every great project is a great team.

Who we are

This screenshot shows the top section of the MPRESSIA website. It features a navigation bar with the company name and several menu items. The main headline is 'Behind every great project is a great team.' Below the headline is a collage of circular images showing various team members in different settings, such as working together, outdoors, and in a meeting. A red button labeled 'Who we are' is positioned at the bottom left of this section.

Product development

03 –

All stages of development are interrelated. Therefore, effective communication, our synergy, and our attention to detail are key to every single one of them. After the mock-ups and tests are done, the next step is designing and coding—incidentally, that happens to be what developers enjoy the most.

All the facets of our development process

25 / \$3000 (18%)

Newsletter

Dulux has announced the Color of the Year 2021

This screenshot displays a different section of the MPRESSIA website, focusing on product development. It includes a navigation bar, a sub-header 'Product development', and a paragraph describing the development process. A large image shows a person working at a computer. To the right, there are several mobile app mockups: one showing a game interface with 'Games Gameplay' and '25 / \$3000 (18%)', another showing a social media post 'Sunday - Valiant all day', and a third showing a newsletter with the headline 'Collect inspirations, save articles, buy design' and 'Newsletter'. A fourth mockup shows a news article 'Dulux has announced the Color of the Year 2021'.

Contracting and development work July – September 2022

Contracting and development work July – September 2022

The screenshot shows the user profile page on the SEEPHI website. The header includes the SEEPHI logo and navigation links: Oferty pracy, Studia i kursy, Wyzwania, O nas, Kontakt, and Moje konto. The main content area is divided into two columns. The left column, titled 'My account', contains links for Personal details, Education information, My competences (which is underlined), and Settings. The right column, titled 'My competences', has a link to 'Show acquired competences'. Below this, a 'Methods' section lists five entries, each 'Definitions of Health & Public Health', with checkmarks for the first two and 'x' marks for the last three. At the bottom of this section are two buttons: 'Improve competences' and 'Check jobs'.

The screenshot shows the 'Wyzwania' (Challenges) page on the SEEPHI website. The header is identical to the previous screenshot. The main heading is 'Wyzwania'. Below it is a search bar with the text '19. Co' and a search icon. A dropdown menu shows a search result '19. Covid'. Below the search bar, there are two challenge cards. Each card is titled 'I. Challenge' and contains placeholder text: 'Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation'. Each card has a 'Check details' button at the bottom right.
