leadership and outreach

Sharing European Educational Experience for Public Health in Israel

(618578-EPP-1-2020-1-BE-EPPKA2-CBHE-JP) is co-funded by the EU ERASMUS+ Key Action 2: Capacity Building in the Field of Higher Education.

Sharing European Educational Experience in Public Health for Israel (SEEEPHI) is a Capacity Building in Higher Education project funded through ERASMUS+, which transfers knowledge and best practices from European Union Higher Education Institutions (HEIs) to countries and HEIs outside the EU.

Objectives

- Detailed analysis of field qualifications content to understand different professional roles in the Israeli public health system.
- Mapping of the competency profiles of the Israeli schools and programmes of public health to guide harmonization between public health education and practice.
- Introduction of a dynamic online interface to enable public health education/training - practice/workforce collaboration, supporting employability and continuing professional development in the Israeli public health system.
- Building leadership capacity via cutting edge training in the Israeli public health schools and programmes, including peer-to-peer and train the trainers offerings.
- Stakeholder engagement to secure key outreach (community, inter-professional, cross-sectoral...) needed to sustain the proposed solutions.

Work Packages

FIELD QUALIFICATION ANALYSIS IN THE ISRAELI PUBLIC HEALTH SYSTEM

MAPPING OF THE COMPETENCY PROFILES OF THE ISRAELI SCHOOLS AND PROGRAMMES OF PUBLIC HEALTH

WORKFORCE ADAPTATION AND EMPLOYABILITY IN THE ISRAELI PUBLIC HEALTH SYSTEM

BUILDING LEADERSHIP CAPACITY IN THE ISRAELI PUBLIC HEALTH SYSTEM

STAKEHOLDER ENGAGEMENT

Expected Results

ASPHER sees SEEEPHI as an excellent opportunity to pilot a comprehensive capacity building action in a specific country context, which may be applied in a similar manner to other countries and regions wishing to improve the employability of their Public Health graduates and build their Public Health Workforce capacity. A key outcome of the project will be a tested protocol that may be adapted to other settings and available to all ASPHER Members.
