Course information

Design, assessment, and implementation of policy, plans, and interventions for mental health

The course is acknowledged by the SGPG (Schweizerische Gesellschaft der Fachärztinnen und -ärzte für Prävention und Gesundheitswesen / Società svizzera dei medici specialisti in prevenzione e salute pubblica) as an advanced training. It is awarded 38 FMH credits.

Facilitators

- **Emiliano Albanese**, University of Geneva , School of Medicine (CH)
- **Benedetto Saraceno**, Director, Lisbon Institute of Global Mental Health, NOVA University, Lisbon (PT)

Objectives

At the end of the course participants will:

- Know the key pending mental health issues and challenges in the context of the Sustainable Development Goals (SDGs);
- Understand and master the principles, approaches, and objectives of the 2013-2020 WHO Mental Health Action Plan;
- Be familiar with the existing experiences, evidence and good practices to inform the public health response to the population's mental health needs;
- Be able to contribute to the design of mental health policy, plans, and programs;
- Be able to identify barriers and facilitators to inform and guide local implementation of mental health policies and plans;
- Acquire competences for the design and assessment of complex interventions for mental health.

Description

- Pending and pressing issues and challenges in public mental health
- Mental Health Policy and Plans, and Mental Health Services
- Identification and use of policy options for the implementation of mental health policies

Prerequisites

None specific.

Previous or current involvement and/or research in mental health projects and programs at all levels of health and social systems is an asset.

Course fee

Reduced rate CHF 1900 (PhD students / low income countries)
Standard rate CHF 2400
Deadline to enroll: 31.07.2019
