

International Days

HAWFulda.International

When: December 1st - 3rd, 2021

Where: Fulda University of Applied Sciences, Germany

The International Days are planned for providing a platform for facilitating and deepening the exchange about Fulda's Bachelor's programme International Health Sciences and other pertinent degree programmes in the field of public and population health with both university and practice partners.

The workshop will combine the critical appraisal of activities and the progress made during the last two years with an intensive exchange about future possibilities and options for deepening the academic and practical cooperation in view of current and future global health challenges.

Furthermore, we would like to discuss opportunities of future funding and international networking on a broader basis so that participation from both the academic side as well as from the International Offices is very much appreciated.

You are warmly welcome!
